

# Nuheat Controls

## Programmable Thermostats

### Harmony Thermostat — Designer Inspired Thermostat

The Harmony thermostat is exclusive to Nuheat. Blending style and function, the Harmony thermostat is the only flush mounted, designer inspired thermostat in the floor heating category.

A seamless fit behind any double-gang faceplate allows homeowners the ability to integrate both style and warmth into their room décor. It may also be mounted beside your other controls if you choose to use a face plate larger than two-gang.

With a of hard-working features, including 7-day programmability and built-in Class A GFCI protection, the Harmony fuses unobtrusive elegance and functionality.

\* the Harmony thermostat requires a two gang deep box  
\*\* face plate not included

### Harmony Benefits:
